Gary and James

At the PBPG Streets and Sidewalks Subcommittee, Don Gross presented information on an accident and the subcommittee asked me to follow-up on. Here it is and see image attached.

A recent accident occurred on East Mission Bay drive. There is a perceived problem where southbound drivers who want to turn right on Grand Ave miss the right turn and then attempt to turn right farther south. This causes an accident. Is there any information on this? Is it a problem? If so what can be done.

Thank You

Chris Olson

Chairperson, PBPG, Streets and Sidewalks Subcommittee
